I see the light of the temple at night

As it shines it reminds me
I must prepare so that I can go there

And I need someone to guide me
I see the light of the temple at night
And its glow is a symbol
Helping me think of the safety and peace that come from the holy temple.
Please teach me about the temple

Please show me how to prepare
Then all of my life I will try
To be worthy to enter there
Please teach me about the temple
I want to know so that someday I may go
